Adelaide – Contaminated Site Assessment & Remediation Consultant

Senversa Pty Ltd is an Australian employee owned environmental consulting firm. Our team is committed to delivering high quality environmental advice to our clients and we provide a supportive environment for our staff. We currently have the opportunity for a highly motivated environmental scientist/ engineer to join our Adelaide CBD based team. The role will primarily involve the completion of field works and data management / report preparation.

Key responsibilities include:

- Project and site management of small to medium sized investigation programs.
- Completion of site investigation field work.
- Data management.
- Preparation of investigation reports.

This role is suitable for candidates possessing the following:

- Bachelor Degree or higher in Environmental Engineering, Environmental Science or equivalent degrees.
- A minimum of one year experience in environmental consulting specialising in contaminated land investigations and fieldwork.
- Familiarity with Preliminary and Detailed Site Investigations, sampling techniques for soil, soil vapour and groundwater and various drilling methods.
- Basic understanding of National Environment Protection Measure and other legislation.
- Strong written and verbal communication skills.

Applicants should also possess the following:

- Demonstrated ability to develop and maintain strong working relationships with peers and clients.
- A current driver's licence.

The Senversa team prides itself on technical excellence and our senior staff are committed to coaching and mentoring staff in a dynamic, friendly, positive, respectful and constructive professional environment. If you are poised to take the next step in your career, please email your CV to careers@senversa.com.au with a covering letter outlining your experience and career goals.
