## Perth – Contaminated Site Assessment & Remediation Senior Consultant

Senversa Pty Ltd is an Australian employee-owned specialist environmental consulting firm with a strong sense of purpose and employee focus. We pride ourselves on being a progressive workplace that employs industry leading professionals and our team is committed to delivering a high quality environmental service to our clients. Due to sustained and strategic growth, we are currently seeking a high calibre environmental practitioner with six to 12+ years consulting experience to join our Perth CBD based team and share in our vision and goals.

Key responsibilities of this role include:

- Project management and client management on a range of exciting contaminated site projects
- Audit support to Senversa's three WA DWER Contaminated Site Auditors.

This role is suitable for candidates possessing the following:

- Bachelor Degree or higher in Environmental Engineering, Environmental Science or equivalent relevant degrees.
- A minimum of six years' experience in environmental consulting specialising in contaminated land projects.
- Demonstrated ability to develop and maintain strong working relationships with peers and clients.
- Previous experience providing direct support to Contaminated Sites Auditors is preferred but not essential.
- Demonstrated initiative, team focus, and a problem-solving attitude.

The Senversa team prides itself on technical excellence and our senior staff are committed to coaching and mentoring staff in a dynamic, friendly, positive, respectful and constructive professional environment. If you are poised to take the next step in your career, please email your CV to [careers@senversa.com.au](mailto:careers@senversa.com.au) by **10<sup>th</sup> November** with a covering letter outlining your experience, values and career goals. Our flexible business structure means candidates outside of these ideal experience ranges will also be considered.
