IT Manager

Senversa is an Australian employee owned environmental and engineering consulting firm. Our team is committed to delivering high quality environmental advice to our clients and we provide a supportive environment for our staff. As a dynamic and fast paced national team, we are looking for someone with strong IT systems, project and helpdesk experience to join our team and step into an IT leadership role. In this position you will:

- Ensure IT systems adequately support the operational, project management and finance needs of the business.
- Actively manage and engage with our external helpdesk and our IT suppliers to ensure adequate support.
- Proactively troubleshoot and identify issues beyond the helpdesk team.
- Monitor external trends to identify opportunities for efficiencies or enhancement.
- Track and manage our IT assets, infrastructure and software needs.
- Report directly to the CEO and influence and support the Management and Senior team in decision making

We see this role as an exciting opportunity for someone with at least 2-6 years experience looking to take the next step. To be successful in this role you will have:

- Commercial thinking and a problem-solving approach
- Excellent time-management, communication & organisational skills across a local and national team
- Strong attention to detail
- A positive, 'can-do' attitude
- Capability in finance data administration, project information management systems and/or the application of finance and data analytics processes to support business needs (e.g. writing SQL queries, Power BI, SSRS etc) preferred.
- CRM, ERP and/or website management experience desirable.

If you are committed to furthering your career in a growing professional services environment, please email your CV to careers@senversa.com.au with a covering letter outlining your experience and reasons for wanting to work for a growing, employee-owned organisation.
