Sydney – Contaminated Land Assessment & Remediation Staff

Senversa Pty Ltd is an Australian employee owned environmental consulting firm. We currently have the opportunity for a highly motivated Senior Environmental Scientist working in the area of contaminated land to join our Sydney CBD based team.

Key responsibilities of this role include:

- Project management of site investigation and remediation programs
- Preparation of high quality deliverables including reports and fee proposals
- Client liaison and management
- Assisting a team of three NSW EPA accredited contaminated site auditors
- Technical work in the form of remedial design, risk assessment, conceptual model development, hydrogeology
- Mentoring and coaching of junior team members.

This role is suitable for candidates possessing the following:

- Bachelor Degree or higher in Environmental Engineering, Environmental Science or equivalent relevant degrees
- 2+ years proven experience in environmental consulting specialising in contaminated land projects and field works
- Strong written, reporting and verbal communication skills
- Proven ability to design and manage site investigation programs
- High level of familiarity with regulatory guideline framework relating to contaminated site investigation / remediation.

Applicants should also possess the following:

- Demonstrated ability to develop and maintain strong working relationships with peers and clients.
- Technical specialty skills in one or more of the following areas: human health and/or ecological risk assessment, in-situ groundwater remediation, management of asbestos in soils, complex hydrogeological assessment and/or audit support
- A current driver's licence.

The Senversa team prides itself on technical excellence and our senior staff are committed to coaching and mentoring staff in a dynamic, friendly, positive, respectful and constructive professional environment. If you are poised to take the next step in your career, please email your CV to careers@senversa.com.au with a covering letter outlining your experience and career goals.

Further information is available by contacting us
(02) 9994 8016. Applications close 30 June 2018.
