Melbourne – Design Drafter

Senversa Pty Ltd is an Australian employee owned environmental and engineering / geosciences consulting firm. Our team is committed to delivering high quality advice to our clients and we provide a supportive and collaborative environment for our staff.

With an industry leading team of professionals we have experienced a sustained period of strong growth and are now looking to meet the requirements of our growing market presence with the appointment of an experienced Design Drafter to support our Waste and Engineering Group.

Key attributes to be successful in the role include:

- Demonstrable experience with AutoCAD and Civil 3D packages. Experience with 12d Model will also be considered favourable.
- Experience working as part of a design team preparing civil earthworks and geosynthetic liner design drawings.
- Advanced experience with AutoCAD and Civil 3D is preferable, with experience in preparing detailed surfaces to generate volume estimates.
- A strong desire to be successful in a rapidly evolving environmental, geotechnical and civil consultancy.

The Senversa team prides itself on technical excellence and our senior staff are committed to coaching and mentoring staff in a dynamic, friendly, positive, respectful and constructive professional environment. We also have industry leading employee benefits and flexible work-life balance arrangements.

If you are poised to take the next step in your career, please email your CV to careers@senversa.com.au with a covering letter outlining your experience and career goals.

Our flexible business structure means candidates outside of these ideal experience ranges will also be considered. Applications close 30 November 2018.
