Perth – Contaminated Site Assessment & Remediation Consultant

Senversa Pty Ltd is an Australian employee owned environmental consulting firm. Our team is committed to delivering high quality environmental advice to our clients and we provide a supportive environment for our staff. We are looking to grow our national team and seek candidates with (2-7 years' experience) to join our Perth based contaminated sites team. This role is suitable for candidates with exceptional skills in the following:

- Degree qualified in environmental or earth sciences or environmental engineering, or related disciplines.
- A minimum of two years' experience in contaminated sites assessment including soil and groundwater assessments, the development of conceptual site models, human health and/or ecological risk assessment, remediation and/or audit support.
- Demonstrated understanding of the Western Australian Department of Water and Environmental Regulation (DWER) and NEPM endorsed guidelines.
- High level project management capabilities.
- Strong reporting and verbal communication skills.
- Compliance with health, safety and environment policies, standards and procedures.
- Ability to develop and maintain strong working relationships with peers, contractors and clients.

The Senversa team prides itself on technical excellence and our senior staff (including three DWER accredited auditors) are committed to coaching and mentoring staff in a dynamic, friendly, positive, respectful and constructive professional environment.

If you are poised to take the next step in your career, please email your CV to careers@senversa.com.au with a covering letter outlining your experience and career goals. Our flexible business structure means candidates outside of these ideal experience ranges will also be considered.
